- The dryer is not designed for built-in installation.
- The dryer can be installed under a worktop, provided that adequate ventilation of the dryer is assured. Install a ventilation grid (minimum 45 cm x 8 cm), in the rear part of the worktop under which the dryer is installed.

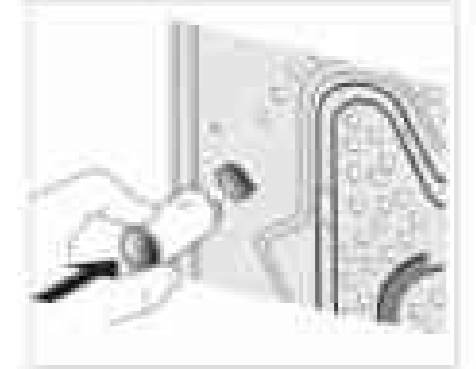

- 4. Assembly of distance holders**
 To ensure that the appliance is positioned at a correct distance from the wall at the rear side and to allow sufficient ventilation, distance holders must be mounted on the rear side of the dryer before starting the first drying cycle.

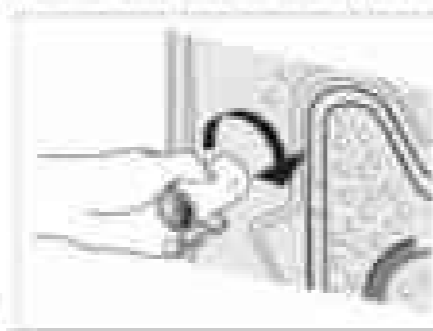

- Remove the two distance holders from the packaging.
- The distance holders must be inserted in the rear side of the dryer in the protective cover.

- Insert the distance holders in the holes provided on both sides.

- Secure both distance holders by turning them in a clockwise direction as far as the stop position.

- 5. User and child protection**
- Children must not be allowed to play with the dryer.
 - Ensure that children and small animals cannot get into the drum.
 - Keep the packaging materials (plastic bags, polystyrene parts, etc.) out of reach of children, as they are potentially dangerous.
 - The appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.

Stacking kit

- Depending on the brand, your dryer can be stacked on top of your front-loading washing machine. For further information please contact the After-Sales Service.
